

2018 Pricing Schedule for Vinifera Cuttings

Prices are per bundle of 100 cuttings and are **exclusive** of GST

Minimum order is 100 cuttings per variety

POA indicates that this variety is available as grafted vines only and will be subject to a non propagation agreement

✂ indicates: DNA test has been conducted on a vine in our source block and the result has confirmed variety

Prices include all packaging for orders over 1000

* Indicates this clone is reported to have a fleck infection

Grapevine Fleck virus is common in Australia, but it is often unrecognised because varieties of vinifera and most rootstock are symptomless. The detrimental effects of fleck have been described in a review by Walter and Martelli (1997). In particular, it can reduce graft take.

RVIC - Riverland Vine Improvement Committee

SAVII - South Australian Vine Improvement Incorporated

FPS - Foundation Planting Services

UCD - University of California Davis

USDA - United States Department of Agriculture

HT- Heat treatment for virus elimination

KWV - SAVII imported from KWV, South Africa
